WORK EXPERIENCE

Capgemini Rome, Italy

Mobile Manager

01/2026 – Current

Mobile team management both technical and organizational.
Android Architect.

Cegeka Rome, Italy

Technical/Project Leader

09/2024 – 01/2026

Mobile team management both technical and organizational. Busy on native and cross-platform projects, including an application with a large user base for an international company in the Oil and Gas industry.

Deloitte Rome, Italy

Senior Consultant / Tech lead

04/2022 – 09/2024

Mobile Tech lead, specializing in Android and Flutter. I develop and manage teams in Flutter (mobile, web and Desktop) and Android (Kotlin + MVVM) projects. I have worked on projects in banking and on the John Lewis Partnership application with a cross-european team.

Almaviva s.p.a. Rome, Italy

Mobile Architect / Team Leader

07/2020 – 04/2022

Mobile Architect for Almaviva s.p.a. . I worked on native and hybrid projects using Flutter. In this period I have been using MVVM for both Android and Flutter and I have used all the new technologies released by Google in Jetpack. I am currently in charge of multiple projects and the contact person for my company as an external consultant for the Mooney application (SisalPay).

NTT Data Rome, Italy

Android Native, Flutter and Xamarin Developer / Team Leader

05/2019 – 07/2020

My role in this company was digital engineer. I deal with the analysis and development of Android app (Kotlin and Java) at Poste Italiane and development of Xamarin and Flutter apps at Enel X. In this period I had the chance to work with RxJava and to use design patterns like MVVM or MVP. I have been actively working on Xamarin, using C# and Visual Studio. Also I've been working with Flutter. I was team leader of three projects on Enel X and on a Poste Italiane project. In addition to the development, I deal with the analysis and architecture of the project.

Philmark Informatica Rome, Italy

Android Developer and tech leader

07/2018 – 05/2019

Android developer for version 5.x of the MyWind, official app of Wind Tre spa. In this environment, the AGILE work methodology was used. This includes a biweekly sprint planning at the Wind Tre spa site. I worked with all the libraries included in the app and I have knowledge of the whole structure of the same. Here I worked with the MVVM pattern and everything related to Android Jetpack. I was the tech leader on the Android side, that is the reference for every technological choice to be made for this platform

Key People Rome, Italy

Android Developer

10/2017 – 07/2018

In these months I worked as an Android programmer for the creation of the 6.x version of the official INPS app, called INPS mobile. Here I learned the SCRUM method and expanded my knowledge about Android programming, which can be found in the section on skills.

Haute école d'ingénierie et d'architecture de Fribourg Fribourg, Switzerland

Analyst and Mobile Developer

11/2016 – 10/2017

The aim of the project is to create a portal through which patients and doctors will be able to access the medical reports in real time. Thanks to a simple app, the patient will be able to indicate the point at which he feels pain and answering a questionnaire to make his report more detailed.
